

Consortium

Lead Contractor

Greece: Agricultural University of Athens

Partners

Greece:

- Creative Thinking Development
- National Center for Scientific Research "Demokritos"

Tunisia:

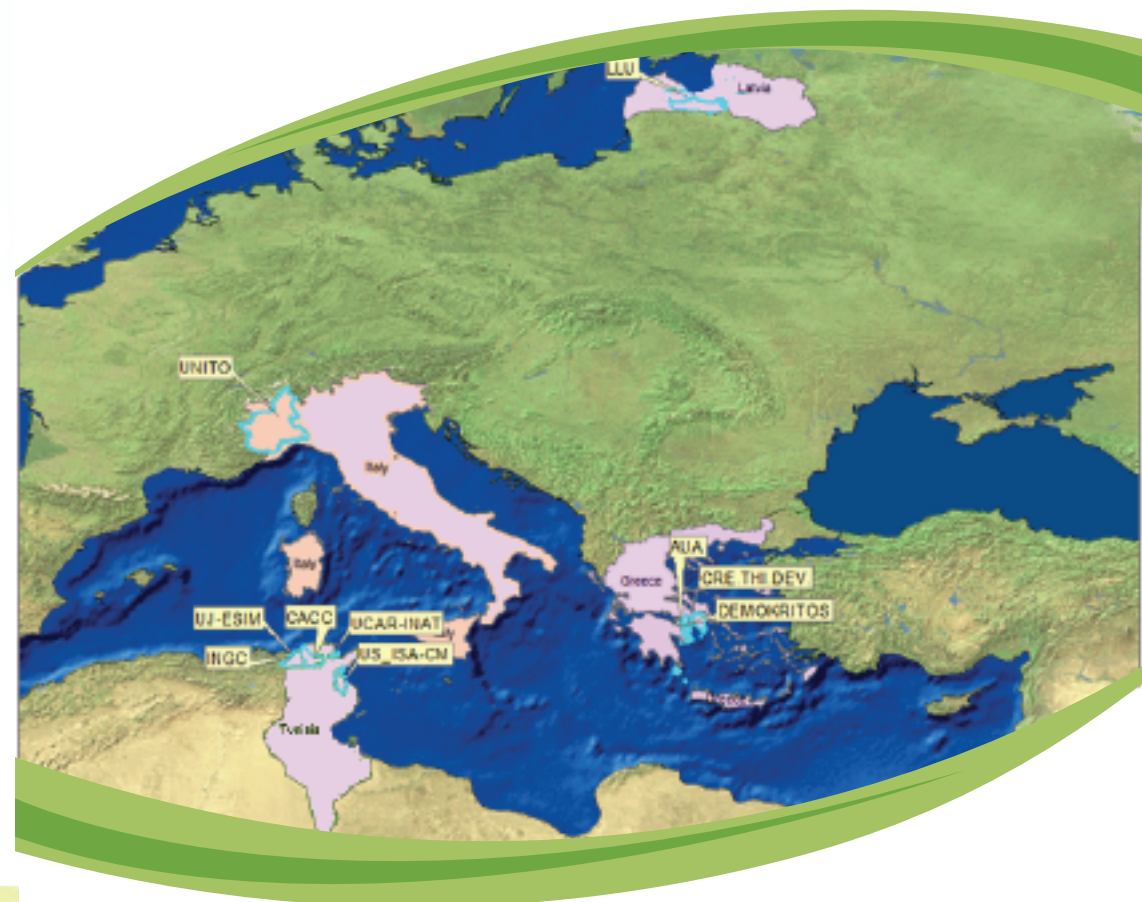

- University of Jendouba: Higher School of Engineers of Medjez El Bab
- University of Carthage: Tunisian Agronomic Institute
- University of Sousse: Higher Institute of Agronomy of Chott-Mariem
- National Institute of Field Crops
- Climate Change Adaptation Center

Latvia:

- Latvia University of Life Sciences and Technologies

Italy:

- University of Turin

Erasmus+ Program

Erasmus + is the European Union's program for education, training, youth and sport for the period 2014-2020. It offers many opportunities for students, teachers, staff and higher education institutions (HEIs) around the world.

For more details about ERASMUS+ , see:

CLICHA Project

CLimate CHange in Agriculture (CLICHA) is designed, under the general aim of building capacity in the field of higher education, in order to modernize, to improve accessibility and internationalization of higher education in the Partner Country considering all necessary skills for sustainable agriculture, respectful of the environment and climate change resilience.

Based on good practices used by the project partners, the project will contribute to improve educational programs and consequently skills of graduates to cope with climate change, mainly mitigation, resilience and adaptation.

Co-funded by the
Erasmus+ Programme
of the European Union

CLICHA
CLIMATE CHANGE IN AGRICULTURE

Specific Objectives

The objectives of this project are the assessment of the educational programs of the Tunisian HEIs in relation with CC; the creation of the necessary cognitive materials; the improvement of the training curricula; the partial putting on line of some modules and the instruction of accreditation process within each Tunisian HEI; the Enhancement of HEIs-enterprises cooperation.

The achievement of these objectives will be possible through the exchange of expertise and good practices within consortium partners.

Expected Results

- ✓ New updated material in the field of “Climate Change, crop, water and animal production”;
- ✓ Development of the relevant courses;
- ✓ Setting up of modern learning equipment (educational and equipment related to the delivery of the courses);
- ✓ Design of learning tools (e-learning platform, dynamic web site), that will all contribute to the achievement of the project's wider objective;
- ✓ Process of accreditation framework for at least one educational program for each Tunisian HEI.
