

CLICHA project

CLimate CHAnge in Agriculture (CLICHA) is designed to build capacity in the field of higher education through modernization, improved accessibility and internationalization in partner countries (Greece, Italy, Latvia, Tunisia) taking into account all the skills needed to ensure sustainable, environmentally friendly and resilient agriculture.

Specific objectives

- ⊕ Assessment of educational programs of Tunisian higher education institutions in relation to the CC;
- ⊕ The creation of the necessary cognitive materials;
- ⊕ Improvement of training curricula;
- ⊕ Partial putting on line of some modules and the instruction of accreditation process within each Tunisian HEI.

Expected results

- ⊕ New updated material in the field of "Climate Change, Plant, Aquatic and Animal Production";
- ⊕ Development of relevant courses;
- ⊕ Implementation of modern educational material (teaching materials and material related to the delivery of courses);
- ⊕ Design learning tools (e-learning platform, dynamic website), all of which will contribute to the wider project goal;
- ⊕ Accreditation framework process for at least one teaching program for each Tunisian higher education institution.
- ⊕ Strengthening cooperation between higher education institutions and businesses.

The achievement of these objectives will be possible through the exchange of expertise and good practices within the consortium partners.

The consortium

Agricultural University of Athens (Coordinator, Greece), Creative Thinking Development (Greece), National Center for Scientific Research "Demokritos" (Greece), University of Jendouba - Higher School of Engineers of Medjez El Bab (National coordinator, Tunisia), University of Carthage – Tunisian Agronomic Institute (Tunisia), University of Sousse - Higher Institute of Agronomy of Chott-Mariem (Tunisia), National Institute of Field Crops (Tunisia), Climate Change Adaptation Center (Tunisia), Latvia University of Life Sciences and Technologies (Latvia), University of Turin - CISAO (Italy)
