Workshop

“Climate-friendly agricultural practices in Latvia”

Topics of the workshop:

1. Planning of feed doses for cattle, improving feed quality and extending the grazing season
2. Exact use of mineral manure, planning for fertilising, liming of acid soils and growing of plants for green manure

Purpose of the workshop: Review, together with representatives of the holdings, the GHG reduction measures selected so far. The workshops will focus on the following:

- analyse the practical feasibility of technological solutions for the implementation of measures;
- prepare a description of the specific technological solutions for the introduction of the holdings of a given cluster for each measure;
- to assess the changes in economic activity caused by the introduction of the measure in the holdings of the cluster.

Lecturers and debate moderators: LLU teachers Dr. oec. Dina Popluga; Dr. oec. Arnis Lēnerts, Dr. oec. Kaspars Naglis-Liepa and Dr. agr. Dzidra Kreišmane

Location and timing: April 12, 2019, at. 11.00 at Valmiera civil parish culture house.

The information will be inserted into the county and LLKC home pages.
